- [Per Santa Barbara County Public Health on 01/22/18, due to high bacteria levels, the beach waters listed below will be closed until further notice:](#)
  - [Arroyo, Burro, Carpinteria, El Capitan State Beach, Hope Ranch, Goleta Beach, Summerland Beach, Hammond Beach and Leadbetter Beach](#)

### **Missions**

- 2018-SOC-44911: Debris staging and sorting area (On Scene)
- 2018-SOC-44884: Parking space for 1 FEMA trailer (53' trailer) at CNG Armory (On Scene)
- 2018-SOC-44859: 4 DWR Hydrologists to assist Santa Barbara County accomplish strategic plan (On Scene)
- 2018-SOC-44836: Support OA with technical support and to use WERT findings in mitigation planning and ID of potential long term engineering solutions (On Scene)
- 2018-SOC-44833: LIDAR Tech Specs (On Scene)
- 2018-SOC-44797: LIDAR mapping assistance (On Scene)
- 2018-SOC-44777: Secure parking at San Buenaventura State Beach to support Santa Barbara's transportation plan ([Mission Closed](#))
- 2018-SOC-44765: CNG Azusa Armory for temporary secure storage of trailers and vans (On Scene)
- 2018-SOC-44682: Debris Management Site (On Scene)
- 2018-SOC-44651: Caltrans to provide traffic, cones and A-Frame barricades (On Scene)
- 2018-SOC-44638: DWR Liaisons to support Debris/Flood Fighting Task Force (On Scene)
- 2018-SOC-44628: Drainage and Creek Clearance (On Scene)
- 2018-SOC-44620: Resources to support debris management (On Scene)
- 2018-SOC-44554: 2 CCC Crews to staff 3 POD locations (On Scene)
- 2018-FIRE-44642: CAL FIRE (MTO) assigned to the Santa Barbara flooding emergency incident in support of life safety and rescue efforts (On Scene)
- 2018-FIRE-44635: CAL FIRE (CDF) assigned to the Santa Barbara flooding emergency incident in support of life safety and rescue efforts (On Scene)
- 2018-Southern-44652: CNG Liaisons to support Santa Barbara County EOC (On Scene)
- 2018-Southern-44520: DWR Liaison to report to Santa Barbara EOC (On Scene)

# **SITUATION SUMMARY**

## **2018 January Winter Storm – Mud and Debris Flow (Continued)**

### **Law Enforcement Mutual Aid**

Per the Cal OES LDO as of 01/24/18:

- Santa Barbara County Sheriff's Office (SBCSO) request Law Enforcement Mutual Aid (LEMA) to support the Law Enforcement (LE) efforts due to the mudslide incident in Montecito (2018-LAW-44773).
  - Los Angeles Sheriff's Department (LASD) accepted the mission of 84 personnel (42 vehicles / 2 personnel each) through 01/28/18, for day and night shift.
  - LASD accepted the mission of 40 personnel and 20 patrol vehicles to staff day and night shift from 01/29/18 through 02/05/18.
- The following In-Region resources are deployed in support of Santa Barbara County:
  - UC Santa Barbara PD, Santa Barbara PD, Santa Maria PD, Lompoc PD and CHP.

### **Recovery:**

- Santa Barbara County
  - A Local Assistance Center (LAC) is scheduled to be open through 02/03/18
    - Location: Calvary Chapel, 1 N. Calle Cesar Chavez, Suite 21, Santa Barbara
    - Hours of operation: Monday - Friday, 1100 – 1830 hours, Saturday 1000 – 1400 hours, closed on Sunday
  - Community meetings are scheduled to be conducted on 01/26/18 at 1600 hours, LaCumbre Jr. High, Santa Barbara
- Ventura County
  - Disaster Recovery Center (DRC)
    - Location: Ventura County Credit Union, 6026 Telephone Rd., Ventura
    - Hours of Operation: Monday - Wednesday 0900-1600, Thursday & Friday: 0900-1700, Saturday 0900-1300, closed on Sunday
  - Cal OES State Debris Staging and Sorting Area opened 01/14/18
    - Location: Ventura County Fairgrounds
    - Hours of operation: 0800 – 2100 hours daily.
- San Diego County
  - DRCs
    - Location 1: Rancho Monserate Community Center, 4650 Dulin Rd., Fallbrook (Closed as of 01/24/18 at 1800 hours)
      - [Services from this DRC will transfer to Location 2](#)
    - Location 2: Bonsall Community Center, 31505 Old River Rd., Bonsall, will open, Wednesday, 01/25/18
      - Hours of Operation: Monday - Saturday 0900 – 1700 hours, closed Sunday
      - [A FEMA Mobile Disaster Recover Center \(MDRC\) will be on site](#)

# WEATHER OF CONCERN

## Weather of Concern

- The National Weather Service advises that a winter storm will produce heavy snow, gusty winds and rain for portions of Northern and Central California mountains and valley locations tonight through early Friday. Heavy rain will impact the Redwood Valley burn scar area which may cause localized flooding.

## **Active Weather Warnings, Watches and Advisories by County:**

- <https://alerts-v2.weather.gov/counties/CA>

# Key Points

01/25 – 01/31

## Thursday-Friday

- A strong winter storm will track across Northern California bringing
  - periods of moderate to heavy rain
  - significant mountain snow
  - gusty winds
  - minor flooding
  - hazardous travel conditions
- No significant impacts expected for Central and Southern California

## Saturday-Wednesday

- Dry with near normal temperatures except light to moderate rain extreme northwest California
- No significant impacts expected

# California OES Impact Threat Matrix

 High Threat  
 Moderate Threat  
 Slight Threat  
 No Discernible Threat

# Days 1-3 Precipitation Forecast

Precipitation (inches)

Thursday

Friday

Saturday

**.05 to .10 inches valleys of central CA, .50 to 1 inch coast and mountains, 1 to 2 inches extreme northwest**

# WEATHER SYNOPSIS BY REGION

## **NORTHERN CALIFORNIA**

A half to 1 inch of rainfall has fallen across the North Coast PSA since midnight. A mix of rain and higher elevation snow will spread south and eastward today and tonight. Snow accumulation levels will also lower and generally range between 1500 to 2500 feet by Thursday. Wetting moisture will overspread the entire region with this event. The North Coast, Mid Coast to Mendocino, Northwest Mountain and Northern Sierra PSAs will be favored with an additional 1.5 to 3.0 inches of liquid water. Gusty southerly winds that impacted the north overnight will transition to central and eastern portions of the region today before relaxing. Look for gusts as high as 50 mph across the higher exposed terrain. Residual light showers main continue into Friday morning before dissipating. Afternoon temperatures will be a few to several degrees below normal Thursday and Friday.

Another Pacific trough will approach the region Saturday and Saturday night and spread precipitation across the northern tier of the region. The North Coast would be favored and more rain than snow is expected since the system will be warmer. Sunday looks to be drier and warmer as a shortwave ridge tries to build.

The weak ridge will break down early next week and allow for lighter showers to spread across the far north. Confidence is rising that the overall weather pattern would turn warmer and drier next week compared to the moist and cool regime the region has been experiencing. It is very plausible this type of pattern could extend into the follow week with a few inside slider troughs impacting the far north and east and ridging off the coast.

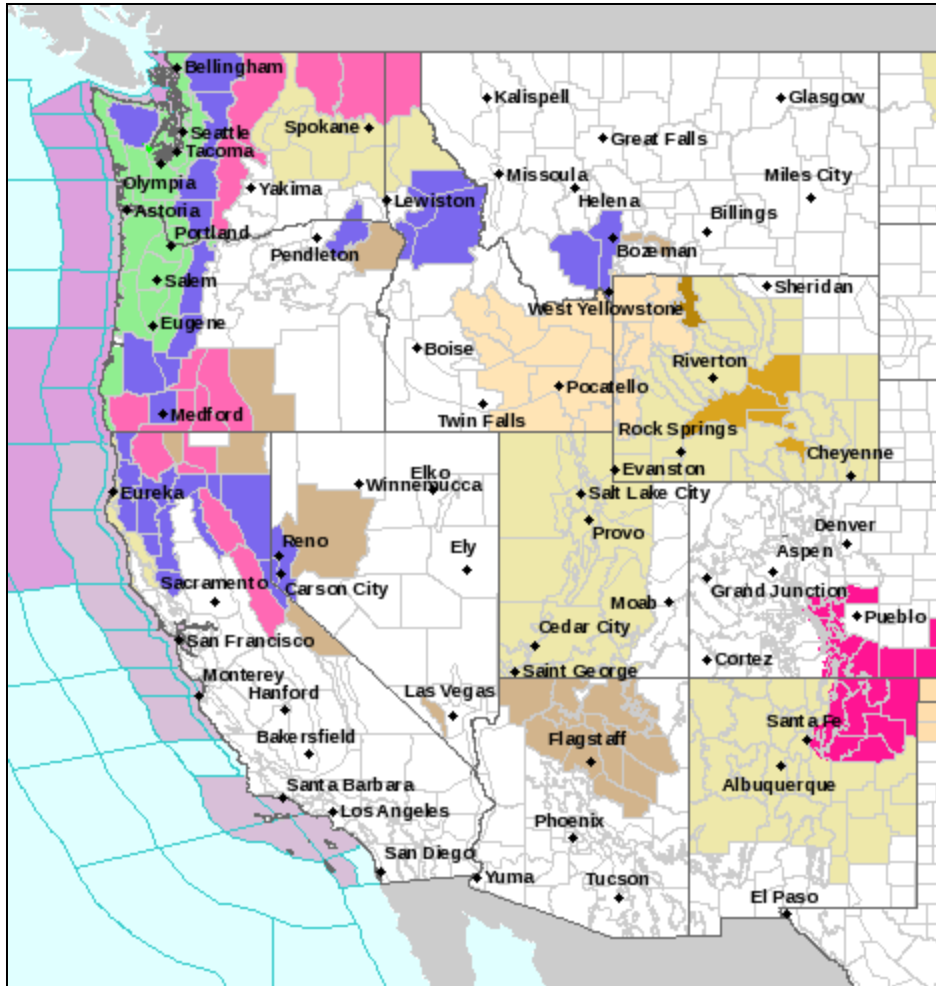

## **SOUTHERN CALIFORNIA**

There will be little change in the weather today as weak high pressure remains over the region. Maximum temperatures will be 5 to 10 degrees above normal, with upper 40s and 50s across the mountains and 60s to mid 70s in the valleys. Minimum humidity will be mainly between 15% and 30% away from the Central Valley and coast and winds will be light. A Pacific trough dropping down the West Coast will bring 10 to 15 degrees of cooling to much of the region Thursday. This trough will also bring scattered showers to Central California this evening through Thursday afternoon with most locations expected to receive less than a quarter inch of rainfall. However, the Central Sierra and its surrounding foothills will receive up to an inch of rainfall. The snow level will be around 5,000 feet. Westerly winds of 20 to 30 mph with gusts to 50 mph will surface across the wind prone mountain and desert areas this evening through Thursday evening. Behind the trough, there will be north winds of 15 to 25 mph with gusts to 40 mph across Santa Barbara County and the Grapevine Thursday evening through Friday morning. Temperatures will warm a few degrees Friday. Strong high pressure will build into California from the southwest bringing a big warming and drying trend to the region Saturday through Monday. Maximum temperatures will be in the low to mid 80s across the valleys of Southern California Sunday and Monday. Minimum humidity will be mainly in the teens away from the San Joaquin Valley Sunday and Monday. Northeast winds of 15 to 25 mph with gusts to 40 mph will surface across the mountains and below the canyons and passes of Southern California Saturday morning through Monday morning. The ridge of high pressure will weaken bringing a cooling trend and a little increase in humidity Tuesday and Wednesday of next week.
